1.0 Introduction

The National Audit Office carried out an audit of the administration and management of diplomatic and service passports.

1.1 Objective of the investigations

The objectives of the audit are to ascertain that;

- There are policies and procedures for the issue of diplomatic and service passports
- All application for diplomatic and service passports are properly vetted by the Ministry of Foreign Affairs (MoFA) prior to issue;
- Diplomatic and service passports are not issued to ineligible applicants;
- All diplomatic and service passports issued are recorded in a register
- Machine readable diplomatic and service passport booklets procured and supplied to the Ministry of Foreign Affairs are properly accounted for.
- Comprehensive inventory is maintained to record all surrendered diplomatic and service passports from individuals and officers no longer in the services of The Gambia government and said passports are locked in a secured place.

1.2 Methodology

The audit involved the review of documentation and discussion with officials both at the Ministry of Foreign Affairs and the Gambia Immigration Department. The audit also involved performing procedures to obtain audit evidence relating to compliance with any applicable laws and regulations governing the receipt and issue of diplomatic and service passports.

1.3 Audit Scope

The audit focused on the procedures during application, approval and issuance of diplomatic and service passports for the period 01 January 2017 to 31 August 2019.

1.4 Priority ranking

Detailed findings have been given a priority ranking of **High**, **Medium** or **Low**. This grading represents the estimated level of risk resulting from the issues identified. A summary of the ranking of these findings is provided in the table below.

Priority	Number of findings
High	20
Medium	0
Low	0

Where the risk is identified **high**, it is imperative that immediate action is taken to address the matter. Failure to address the matter may result to significant weakness, material misstatement or loss.

Where that risk identified is ranked **medium**, corrective action should be taken on the matter as soon as possible, at least within the financial year in which the risk is reported.

Where the risk identified is ranked **low**, it is desirable that corrective action be taken as it will result in enhancing controls and improve efficiency.

1.5 Management response

We have also included a section for management comments under each finding. This section is for you to give feedback on the finding. We propose that you provide your response in the following format:

Management Response	
Action to be taken	
Officer responsible for remedial action	
Date when situation will be regularized	

1.6 Appreciation

We would like to take this opportunity to express our gratitude to staff of the Ministry of Foreign Affairs and Gambia Immigration Department for their cooperation and assistance during the audit exercise.

1.7 Overall conclusion

There are material deficiencies in the process and procedures for the application and issue of diplomatic and service passports. There is a need for significant improvement in key internal controls over the issuance and management of diplomatic and service passports.

2.0 Executive Summary

2.1 Ineligible holders of diplomatic passport

A diplomat is a person appointed by a State or intergovernmental institution like the United Nations to conduct diplomacy with one or more other states. We noted that diplomatic passports were issued to businessmen and other individuals who were not appointed by the Government. Ineligible holders of diplomatic passports pose great risk to the image and reputation of the country as they may use the diplomatic status for nefarious purposes.

2.2 Ineligible service passport holders

We noted that service passports were issued to individuals who were not civil servants, civil servant below grade 10 and non-Gambians and therefore not eligible to hold such passports. These Ineligible holders might abuse the use of their passports to the detriment of the country.

2.3 Issuance of diplomatic to Non-Gambians

During the audit, we noted that diplomatic passports were issued to non-Gambians and justifications for these issuance were not provided for our review. There is a risk that these holders are ineligible and could abuse the use of their passports.

2.4 Multiple issuance of diplomatic passports

We noted that certain individuals were concurrently issued multiple diplomatic passports during the years under review. Whilst it is not unusual to issue multiple diplomatic passports to a person at the same time given the nature of some offices, the process needs to be carefully managed to avoid misuse.

2.5 Issuance of diplomatic passports through directives

We noted that certain individuals were issued diplomatic passport through directive from Office of the President (OP) without following the due process. As a result, we cannot ascertain that proper checks were conducted to assess their eligibility prior to approval being granted which might lead to ineligible holders.

2.6 . No guideline or policy on the issuance of diplomatic passport

We noted that there is no policy or guideline for the issue of diplomatic passports and the Office of the President approves applications without recourse to any regulation. There is a very high risk of issuing passport to ineligible persons..

2.7 Approved issuance of diplomatic passport to ineligible dependents

We noted that diplomatic passports were issued to individuals who claimed to be dependents of diplomats but the audit team could not establish such relations. There is a risk that passport are being issued ineligible persons.

2.8 Un-accounted passports

The Gambia Immigration department supplied a total of six thousand five hundred machine readable passports to MOFA in 2014. However, officials at the Ministry were unable to account for five thousand three hundred and ninety five (5,395) passports. There is a risk that these passports are issued in exchange for cash.

2.9 Suspected misappropriation of diplomatic passports

During our audit, we noted that diplomatic passports were being used by certain individuals but records of which cannot be traced in any official data. There is a risk that fake passports or collusion exist among government officials.

2.10 Misappropriated diplomatic passport

We noted with concern that a number of diplomatic passports were counterfeit and illegally issued to individuals. The concerned diplomatic passports serials were issued from the unaccounted machine readable diplomatic passports procured and issued to MoFA in 2014. This is indicative of high level of corruption by government officials who are entrusted with the duty of keeping these passports.

2.11 Diplomatic and Service passport issued without supporting documents

We noted that diplomatic and service passports were issued to certain individuals but their application and approval letters were missing from the file. There is a risk that processes and procedures were not followed which could lead to ineligible holders.

2.12 Returned or surrendered passport

We noted that returned or surrendered diplomatic and service passports are not kept under lock and key and secured safely and could easily get lost or stolen.

2.13 Undefined titles /designation

We noted that diplomatic passports were issued to ambassadors at large, goodwill ambassadors and honorary consuls without stating the missions they are heading. There is a risk that these passports are issued in exchange for money.

2.14 Former government officials not returning their passports

We reviewed diplomatic and service passport files and noted that certain officers are no longer serving the Government of The Gambia and there was no evidence to suggest that these passports were surrendered to the Ministry of Foreign Affairs.

2.15 Inconsistency between MOFA and GID records

We noted that record of information (i.e. files and registers) in respect of diplomatic and service passports issued at the Ministry of Foreign Affairs do not correspond with records maintained by the Gambia Immigration Department. There is a risk that records at both departments are inaccurate.

2.16 Discrepancy between MoFA and GID records of service and diplomatic passports

We noted that machine readable diplomatic and service passports were issued at MoFA but could not be traced in GID records of printed and issued passports. Similarly, a review of records of printed biometric and machine readable passports in respect of diplomatic and service passports and their respective files maintained by GID did not reflect in records maintained by MoFA. There is a risk that these issuances were not sanctioned by government.

2.17 No systematic method of issuing diplomatic and service passport

We noted that the Ministry of Foreign Affairs (MoFA) did not issue diplomatic and service passport in serial order. Our reconciliation of diplomatic and service passport supplied to MoFA against the physical stock of diplomatic and service passports at hand revealed that 38 diplomatic and 88 service passports were found in stock which relates to earlier supplies. There is a risk that these passports could be illegally issued without trace.

2.18 Internal control weakness relating to the maintenance of records

We noted that the diplomatic and service passport files at the Ministry of Foreign Affairs were not properly maintained as several correspondences were removed from the file. These valuable documents might go missing or misfiled.

2.19 Service and diplomatic passports holders with unknown grade or position

We noted that diplomatic and service passports are issued to individuals whose position and grades could not be confirmed by the audit team. We cannot therefore confirm that these are eligible holders.

3.0 Detail finding

3.1 Ineligible holders of diplomatic passport

Finding

The Geneva Convention is an International treaty adopted by the United Nations in April 1964 and forms the basis of diplomatic immunity. It outlines the basis for diplomatic relations between countries and specifies the privileges of a diplomatic mission which enable diplomats perform their duties without compulsion by host country.

Furthermore, the treaty clearly realized that the purpose of such privileges and immunities is not to benefit individuals but to ensure the efficient performance of the functions of diplomatic missions as representing States.

During the audit, management provided us with a list of positions within the public services that are eligible to be issued diplomatic passports. Details are shown below.

Officer	Entitlement		
President	Himself/ Herself	Spouse	Dependent
Vice President	Himself/ Herself	Spouse	Dependent
Ministers	Himself/ Herself	Spouse	-
Ambassadors	Himself/ Herself	Spouse	Dependent
Diplomats	Himself/ Herself	Spouse	Dependent
Speaker of the House	Himself/ Herself	-	-
Permanent Secretary	Himself/ Herself	-	-
Directors General	Himself/ Herself	-	-
Governor of Central Bank	Himself/ Herself	-	-
Senior Heads of Parastatal [grade 11 and above]	Himself/ Herself	-	-
Protocols both at MOFA and OP	Himself/ Herself	-	-
UN officers i.e. senior position P5, P6, D1 & D2 etc.	Himself/ Herself	-	-

- Discussions with senior officials at the Ministry of Foreign Affairs and review of the eligibility criteria they provided, revealed that the following categories were not included in the list of eligible passport holders but were issued with diplomatic passports. Businessmen, religious leaders and other individuals. Details are shown in **appendix A**.
- We also noted that the eligibility criteria list did not include members of the National Assembly but were issued diplomatic passports. Details are shown in **appendix B**.

Implication

The eligibility criteria list is either very old, incomplete or not certified.

Diplomatic passports were issued without regards to any regulation or guideline.

Control over the issue of Diplomatic passports is very weak and open to abuse.

Priority

High

Recommendation

The Government of the Gambia should ensure that ineligible holders are contacted to surrender the diplomatic passports issued to them immediately or appropriate actions are taken to confiscate the passports if they fail to comply.

The Ministry of Foreign Affairs should investigate irregularities leading to the issuance of diplomatic passports to Ineligible holders so that preventive measures are put in place to avoid recurrences.

Government should institute punitive actions against officers involved in the issuing to this valuable document to ineligible Gambians and foreigners. Internal controls over the issuance of diplomatic passports should be strengthened to prevent the issue of passports to ineligible citizens.

3.2 Ineligible holders of Service passport

Finding

During the audit, we noted that service passports were issued to 47 individuals who were non-civil servants, civil servant below grade 10, non-Gambian and as such are ineligible to hold service passports. Details are in **appendix C1 and C2**.

Implication

Control over the issue of Service passports is very weak and open to abuse.

Service passport were issued without reference any regulation or guideline.

Priority

High

Recommendation

The Government of the Gambia should ensure that these ineligible holders are contacted to return the service passports immediately or necessary actions are taken to confiscate the passports if individuals failed to comply

The Government of the Gambia should launch an investigation to establish those public officials who were involved in issuing service passports to ineligible holders.

Government should institute punitive actions against officers involved in the issuing to this valuable document to ineligible Gambians and foreigners.

3.3 Issuance of diplomatic passport to Non-Gambians

Finding

Review of registers of diplomatic passports maintained by Gambia Immigrations Department (GID) and Ministry of Foreign Affairs (MoFA) revealed that diplomatic passports were issued to non-Gambians. However, evidence of justifications for issuance of diplomatic passports to non-Gambians was not provided up to time of writing this management letter. Details are shown in **appendix D**.

Implication

There is a risk that the issuances of diplomatic passports were not sanctioned by the appropriate authorities.

There is a risk that these holders are ineligible and could use these passports for personal gains.

Priority

High

Recommendation

Investigation should be conducted to ascertain those public officers involved in issuing diplomatic passport to non-Gambian.

3.4 Multiple issuance of diplomatic passport

Finding

Review of the diplomatic passport register held at immigration and MoFA revealed that the following persons were concurrently issued multiple diplomatic passports during the years under review. However, further discussion with senior official revealed that irrespective of class, rank and positions individual are only entitled to one diplomatic passport at a time. Whilst it is not unusual to issue multiple diplomatic passport to a person at the same time given the nature of some offices, the process needs to be carefully managed to avoid misuse. Details are shown in **appendix E**.

Implication

Control over the issue of Diplomatic passports is weak and open to abuse.

Priority

High

Recommendation

The Ministry of Foreign Affairs should ensure that a policy is in place such that individuals are not allowed to hold multiple diplomatic passports unnecessarily.

3.5 Issuance of diplomatic passport through directives

Finding

Discussion with officials at Ministry of Foreign Affairs and review of documents revealed the following steps/processes are required before an application for diplomatic passport can be approved.

- i. Applicants for diplomatic passports send their application to Ministry of Foreign Affairs (MoFA).
- ii. The application will include: a letter from the institution stating the applicant name, position, index form, copy of any nationality document.
- iii. The application is verified by MoFA staffs as to whether they met the above criteria.
- iv. The Permanent Secretary then counter check and if he/she is satisfied with the application together with the supporting documents then he/she signs the index forms.
- v. The application is then forwarded to Office of the President for approval.

We noted that the following individual were issued diplomatic passport through directive from Office of the President (OP) without following the steps/processes indicated above.

Instead, only copies of directives from Office of the President (OP) were filed. Details are shown in **appendix F**.

Implication

There is a risk that proper vetting and verifications are not done to determine the eligibility of applicants.

Priority

High

Recommendation

We recommend that all applications for Diplomatic or Service passports, regardless of origin, are subjected to proper vetting or screening by MoFA before approvals.

3.6 No policy or guidelines on the issuance of diplomatic passports

Finding

During the audit, we noted the absence of policy or guidelines including set criteria for the application, processing and issuance of diplomatic passports. In some instances protocols at the Ministry of Foreign Affairs are bypassed and approval was sought directly from the Office of the President. The absence of policy guidelines for the issue of Diplomatic and Service passports has led to the serious abuse of the system.

We further noted that a correspondence was received from the Office of the President in December 2018 requesting the Permanent Secretary Ministry of Foreign Affairs to develop an eligibility guideline for the issuance of diplomatic passports but no evidence of such policy guidelines was provided by the officials at MoFA.

Implication

There is a risk that approvals for diplomatic passports were based on individual discretion and not guided by approved policies or guidelines.

This could increase the chances of fraudulent activities by officials in the issuance of diplomatic passports.

Priority

High

Recommendation

The Ministry of Foreign Affairs should provide explanation for their failure to develop a policy guideline as requested by the Office of the President.

The Government of the Gambia should ensure that appropriate guidelines or policies in respect of the issuance of Diplomatic and Service passports are developed and followed during application, processing and issuing.

3.7 Issuance of diplomatic passports to ineligible dependents

Finding

Discussions with officials at MoFA revealed that the only direct dependents of the President, Vice President, Ambassadors and Diplomats at missions are entitled to hold diplomatic passports even though no documented evidence was provided to support this claim.

However, we noted that diplomatic passports were issued directly by the Office of the President to individuals whose relationship could not be established with the above mentioned officials. Therefore, they were not considered to have direct relationship with the officials who had once held these positions.

Details are shown in **appendix G**.

Implication

There is a very high risk of fraud in the issue of Diplomatic passports.

Priority

High

Recommendation

Effort should be made to repossess these passports from the ineligible holders and sanction those officials responsible for their issue

3.8 Un-accounted passports

Finding

During the audit, we noted that through letters referenced LD 118/233/01 (405) and dated 4 November 2014 and LD 118/233/01 (395-AT) dated 16 July 2014 respectively, 3,600 (three thousand six hundred machine readable Service passports and 2,600 (two thousand six hundred) Diplomatic passports were procured from De La Rue International limited, a commercial security printer and papermaker company located in the United Kingdom. These documents when received by the Ministry of Foreign Affairs are kept by the Director of protocol.

Out of the total stock of 6,200 (six thousand two) Diplomatic and Service passports received, only eight hundred and five 805 (eight hundred and five), six hundred and forty-one Diplomatic and one hundred and sixty Service passports were accounted for during period under review. Leaving an unaccounted balance of 5,395 (five thousand three hundred and ninety-five), 1959 (one thousand nine hundred and fifty nine Diplomatic passports and 3,436 (three thousand four hundred and thirty-six Service passports). Details of the passports received by officials of Ministry of Foreign Affairs are shown below. Details of unaccounted passports are shown in **Appendix H**.

Date	Diplomatic Passports	No. of Passports	Recipient
16 July 2014	D0014297 - D0015296	1000 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
16 July 2014	D0015297 - D0016297	1000 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
16 July 2014	D0013197 - D0013296	600 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
	Service Passports		
4 November 2014	S00013601 - S0014600	1000 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
4 November 2014	S00014601 - S0015600	1000 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
4 November 2014	S00015601 - S0016600	1000 Passports	Baboucarr M.S Jobarteh (Director of Protocol)
4 November 2014	S0013001 - S0013600	600 Passports	Baboucarr M.S Jobarteh (Director of Protocol)

Implication

This is indicative of inadequate controls over the receipt and issue of passports at the level of the Ministry of Foreign Affairs.

There is a risk that the custodians of these passports do not perform periodic reconciliations to establish the number of passports issued out and the balance at any given time.

There is a possibility that these passports were issued to ineligible applicants in exchange for cash.

Priority

High

Recommendation

We recommend that the Ministry of Foreign Affairs strengthened the controls over the handling of passports.

We request management to Investigate into the unaccounted passports and establish the whereabouts of the unaccounted passports detailed in **appendix H**

We recommend that regular reconciliations are performed to assist in identifying and correcting errors on a timely manner.

3.9 Illegal issuance of diplomatic passports

Finding

During our audit, we noted that diplomatic passports were being used by the under listed holders. This includes a Gambian and some foreign nationals who claimed to be serving in various capacities.

However, we could not trace these passport numbers in either MoFA or GID records thus raising concerns that the passports might have been obtained through illegal means.

Details of holders are shown below;

Name	Title	Dated of Birth	Place of Birth	Diplomatic Passport No	Date of issue	Nationality
Brandl Andreas Helmut	Ambassador at Large	07 Sept 1967	Munich	D0014014	21 June 2019	Gambian
Baumgartner Nidal	Ambassador at Large	20 Nov 1995	Sirnach TG	D0013944	19 June 2019	Gambian
Ziemian Roman Kazimier	Ambassador at Large	04 March 1973	Jelenia Gora	D0014195	19 July 2019	Gambian
Morgenstern Stephan Karl	Ambassador at Large	07 Oct 1962	Berlin	D0014196	24 July 2019	Gambian
Sillah Muhammed	Business Executive	16 Oct 1950	Garawol	D0001416	24 July 2019	Gambian
Musa Tarek Kalil	Business Executive	N/A	Freetown	D0001424	23 July 2019	Gambian

Implication

There is a risk that these passports were counterfeits and therefore issued illegally to the above individuals in exchange for personal benefit.

There is a risk that these diplomatic passports are issued through collusions amongst responsible officials to perpetrate fraud at the detriment of government.

Priority

High

Recommendation

Investigation should be made to establish how these diplomatic passports were issued and who issued the documents.

Officials found to have been involved in the malpractice should be prosecuted.

3.10 Misappropriated diplomatic passport

Finding

We noted with concern that a number of diplomatic passports were discovered by our embassies to be counterfeit. Our examinations however, revealed that the purported counterfeit passport were actually not counterfeited but part of the missing stock of passports which were procured and issued to MoFA in 2014.

We are worried that although the used of counterfeit Gambian diplomatic passports were communicated to MoFA through letter referenced GAMEMB/BJ/94(MS) and dated 2 September 2019 from Gambian Embassy in China and the evidence of correspondences was filed. There was no evidence of investigation on the matter and no actions were taken by the government. Failure to act on such a serious matter is an indictment of the Ministry of Foreign Affairs

Details of the passports are shown below:

Name	Nationality	Date of Birth	Passport No.	Issued Date	Expire Date
Yusupha Njie	Gambian	22 Mar 1975	D0016080	20 Feb 2019	20 Feb 2024
Ziemian Hortman Anastasiia	Gambian	30 Dec 1994	D0016169	25 July 2019	25 July 2024
Tzan Zhao	Gambian	13 Oct 1976	D0016078	21 May 2019	21 May 2024

Implication

There is a risk that the unaccounted diplomatic passports are sold to the public by certain individuals to enrich themselves at the detriment of government.

This is indicative of very weak controls and possible collusion between approving parties over the issue of diplomatic passports

There is a risk that more diplomatic passports are illegally issued to ineligible persons.

Priority

High

Recommendation

The Government of the Gambia should strengthen the controls over the issuance and printing of diplomatic passports.

Investigation should be made so that punitive actions are taken against the perpetrators of these crimes.

3.11 Diplomatic and service passports issued without supporting documents

Finding

Review of the diplomatic and service passports files revealed that 24 diplomatic and 272 service passports were issued to certain individuals but their application and approval letters were missing from the file.

In the absence of individual applications and approval letters, it would be difficult to ascertain the eligibility of the beneficiaries

Details are shown in **appendix I1 & I2.**

Implication

There is a risk that there were not documented policies and procedures in respect of the issuance of diplomatic and service passports during the period under review.

Priority

High

Recommendation

Effort should be made to track these individuals in order to establish the officers responsible for issuing out these passports.

Passports issued without the relevant supporting documents should be recalled and surrendered as they are considered to be illegal.

We also recommend that internal controls over the issuance of diplomatic and service passports are strengthened to avoid recurrences.

3.12 Returned or surrendered passports

Finding

Review of diplomatic and service passports file revealed that returned or surrendered diplomatic and service passports were not kept under lock and key and secured safely. These passports were left in the passport correspondence files.

In addition, discussion held with officials at the Ministry of Foreign Affairs and further review of the passport correspondence file, we noted that some diplomatic and service passports purported to have been surrendered either due to expiry, termination of service of the holder or exhausted passport pages could not be traced to the files.

We requested for these passports but were not provided for verification by the audit team up to the time of writing this management letter.

Details are in **appendix J1 & J2**.

Implication

These passports could be reused by unauthorised personnel.

There is a risk that the said passports could go missing and unaccounted for.

Priority

High

Recommendation

The passports in the correspondence file should be safely and securely kept and should not be displayed on the correspondence file.

Management should ensure that inventory of these passport are taken immediately, and kept in a secured lock safe.

Efforts should be made to trace all surrendered passports and keep them in a safe place and this office furnished with details for verification.

3.13 Undefined titles/designations

Finding

Discussion with officials at MoFA revealed that Diplomatic status is accorded to the ambassadors at large, goodwill ambassadors and honorary consuls.

- Ambassador-At--Large is an ambassador with special duties not appointed to a specific country.
- Goodwill-Ambassadors is an individual who advocates for a specific cause for a global issue on the basis of their notability as a public figure.
- Honorary Consul are not career diplomats they are usually citizens of the host country where live, work and pay taxes.

Further discussion with officials and review of passport files revealed that individuals appointed in these roles were issued diplomatic passports without clearly specifying their respective missions, period for which they are to serve as ambassadors at large/ goodwill ambassadors and achievement made. Details are shown in **appendix K**.

Implication

There is a risk that the above holders are accorded with diplomatic privileges without representing the interest of The Government of The Gambia.

Priority

High

Recommendation

We recommend that individuals issued with Diplomatic passports designated as Good will Ambassadors, Ambassador at Large and Honorary Consul are nullified pending the establishment of formal criteria or policy by Government.

In addition, the relevant authorities should work closely with the Ministry of Foreign Affairs in ensuring that all ambassador at large, goodwill ambassadors and honorary consul provide periodic reports of their activities including achievements to Government of the Gambia. This should be used as a basis to maintain or discontinue engaging such individuals in holding such positions/designation on behalf Government.

3.14 Terminated government officials not returning their diplomatic and service passports

Finding

We reviewed diplomatic and service passport files together with terminated employees and noted that 34 officers are no longer serving the Government of The Gambia and there was no evidence to suggest that these passports were surrendered to the Ministry of Foreign Affairs.

Details are shown in **Appendix L**.

Implication

There is a risk that these individuals could use these passports to enjoy benefits that are only accorded to existing civil servants occupying senior positions in government.

This is indicative of inadequate controls in the management of diplomatic and service passports.

Priority

High

Recommendation

The Government of the Gambia should ensure that diplomatic and service passports of public officers whose service has been terminated by government are surrendered without delay.

The Government should ensure that these diplomatic or service passports holders are notified to surrender their passports without delay.

In future, the Ministry of Foreign Affairs should ensure necessary actions are taken against individual who fails to surrender their passports on time.

3.15 Inconsistency between MoFA and GID records

Finding

Review of the diplomatic and service passport register revealed that the Ministry of Foreign Affairs issued 7 applicants with either a diplomatic or service passports without recording the passports serial numbers against the respective names in the register.

In addition, we noted that details on files and registers in respect of diplomatic and service passports issued at the Ministry of Foreign Affairs do not correspond with records maintained by the Gambia Immigration Department.

As such, we are unable to determine the accuracy and validity of records held by both parties.

Details are shown in **appendix M1, M2 and M3**.

Implication

There is an increased risk that passports were issued without following due process and procedures suggesting collusion between staff at these institutions to illegally issue these documents.

There is risk a due care is not taken by both institutions when issuing these passports.

There is a risk that reconciliations were not performed between MoFA and GID for the period under review and as such errors or fraud might not be detected and corrected on time.

Priority

High

Recommendation

Investigation should be made to establish reason(s) for the inconsistencies in recording of diplomatic and service passports by the two institutions (MoFA and GID) during the period under review.

In future, both institutions should ensure that there are periodic reconciliations performed and provide explanation for any irregularity or mismatch.

3.16 Discrepancies between MoFA and GID records of Service and Diplomatic Passports

Finding

Reconciliation of diplomatic and service passports issued and recorded in MoFA register against the records of the diplomatic and service passport printed and issued by GID revealed that 14 machine readable diplomatic and 66 service passports were issued at MoFA but could not be traced in GID records of printed and issued passports. Details are shown in **appendix N1 and N2**.

We also noted that printed biometric and machine-readable passports in respect of 426 diplomatic and 71 service passports and their respective files maintained by GID did not reflected in similar records maintained by MoFA.

As such, we cannot ascertain whether government sanctioned the printing and issue of the said passports.

Details are shown in **appendix O1 and O2**.

Implication

There is a risk that periodic reconciliations are not performed by between MoFA and GID records to identify errors and for corrections in a timely manner.

There is a risk that these passports were not by the Gambia Immigration Department. In the absence of individual applications and approval on filed, it would be difficult to ascertain the appropriateness of the Service and diplomatic passports issued by GID.

This is indicative of serious control lapses over the application and issuance processes of the diplomatic and service passports.

There is a risk that these passports were issued directly by GID without the consent of MoFA.

Priority

High

Recommendation

The Government of the Gambia should investigate these irregularities and ensure that corrective measures are taken immediately.

We recommend that periodic reconciliations are performed between MoFA and GID to identify and correct errors in a timely manner.

We recommend that an investigation should be made to establish the reason(s) for the disparities between the records maintain by GID and MoFA.
The Government should ensure that all illegal passports during the period under reviewed are recalled.

3.17 No systematic method of issuing diplomatic and service passport

Finding

During the audit, we noted that the Ministry of Foreign Affairs (MoFA) did not issue diplomatic and service passport in order of serial number. Reconciliation of diplomatic and service passport issued by MoFA against the physical stock of at hand revealed that passports are issued randomly and not in sequential order.

As a result, the reconciliation revealed that 38 diplomatic and 88 service passports were stock at hand.

Details are shown in **appendix P**.

Implication

This is indicative of weak internal controls over the issuance of diplomatic and service passports which could result to misappropriations of diplomatic and service passports.

Lack of proper supervision, monitoring and control over the processes and procedures in the issuance of diplomatic and service passports could have led to the passports scandal.

This is indicative that there was no systematic method for the issuing diplomatic and service passports during the period under review.

Priority

High

Recommendation

The Ministry of Foreign Affairs should ensure that diplomatic and service passports are issued sequentially so that reconciliation of stock issued and those outstanding could easily be established.

3.18 Internal control weakness relating to the maintenance of records files

Finding

During our audit, we noted that the diplomatic and service passport files at the Ministry of Foreign Affairs were not properly maintained. This was evident by the number of correspondences that were removed from the file to be photocopied which were returned but not filed in order of folio sequence which has resulted to proliferation of misfiling of correspondences.

Implication

There is risk that relevant documentations relating to diplomatic and service passports could go missing.

It will be difficult to review diplomatic and service passport file during audit and other inspection purposes.

Priority

High

Recommendation

We recommend that the files be maintained properly by ensuring that all correspondence are filed according to their folios. In addition, whenever a correspondence is removed, the custodian of these files should ensure that they are returned and filed accordingly.

3.19 Service and diplomatic passports holders with unknown grade or position

Finding

Review of the diplomatic and service passports files revealed instances in which 105 individuals were issued diplomatic and 60 service passports were issued to government officers whose grades or positions remained unknown.

In addition, we also noted that the dependents of these passport holders were also issued with diplomatic passports.

There was no evidence provided to confirm the grade of the passport holders to ascertain their eligibility and their dependents.

Details are shown in **appendix Q1, Q2 & Q3**.

Implication

In the absence of individual's designations and grades on applications, it would be difficult to confirm that the respective diplomatic or service passports holders were eligible.

This is indicative of serious control lapses over the application and issuance processes of the diplomatic and service passport which could result to issuing diplomatic or service passports to ineligible individuals.

Priority

High

Recommendation

Management should ensure that the relevant grades and designations of concern individuals are provided to the audit team immediately for verification.

In future, management should ensure that application of both diplomatic and service passports include designations and grades of applicants to ensure that the appropriate individuals are issued with these documents.

4.0 Conclusion

The lack of regulation and guidelines for the administration and management of Diplomatic and Service passports has made the system susceptible to abuse and misuse. No wonder that some unscrupulous officials from both the Office of the President and the Ministry of Foreign Affairs capitalized by dishing out the passports to the highest bidder.

The proliferation of Diplomatic and Service passport has seriously diminished the value of our passports and tarnished the image of the country; and although it did not affect the number of countries that we can visit, it has definitely made the rigors of obtaining visas to some countries much more difficult.

The Ministry of Foreign Affairs should urgently draft policy guidelines for eligibility for Diplomatic and Service passports and engage all stakeholders for validation and implementation without delay.

Appendix A. Ineligible diplomatic passport holders
